The Three Pillars of Our Move

This is more than a new web address. It is our own platform, a protected founding rate, and a full set of member tools.

1. Ownership

Our own domain and platform. No third-party community rules, no gatekeepers, and private governance under our own Private Membership Association.

2. Your Founding Rate

Founding members stay at **\$200/month**, locked in while your membership stays active. New members join at \$399/month.

3. The Toolset

The full course, a library of 34 templates, forms and reference documents, the e-book (included for members), and Vincent's AI Twin, available any time.

LIVE GROUP CALLS

Members get 4 live group calls per month with Vincent, Raven, Joy and Damita. Dates, times and joining links are posted in the Live Classes section of your dashboard.

A Message from Vincent

Why we built our own platform: ownership, no gatekeepers, and a lasting commitment.

To my fellow members, family, and dedicated students,

When we began our journey inside the Skool community, our goal was simple yet profound: to cut through the confusion and give our people clear procedural knowledge about reclaiming their estates. Week after week, we gathered on live calls, studied UCC-1 filings, examined express trusts, and supported one another. Together, we built a strong community.

As our community grew, one thing became clear: we cannot teach ownership while renting space on someone else's platform.

Third-party software providers like Skool bring platform risk. They can change community rules, restrict content, remove organizations without notice, or change their fees. When the work involves private trusts and estate documentation, depending on an outside gatekeeper is a weakness we no longer accept.

That is why I built TheFreeway.club as the home of our Private Membership Association. Owning our domain and platform keeps our records, recordings and community discussions in our own hands.

“If you do not own the soil your schoolhouse is built upon, you do not own the school. Today, we step off leased ground and stand on our own.”

— VINCENT LAMAR EDWARDS

What does this move mean for you? First, as a founding member your rate stays at **\$200/month**, locked in for as long as your membership stays active, while new members join at \$399/month. Second, you have on-demand access to my AI Twin, trained on my course videos and class transcripts, ready to help you study at any hour. Third, you get the full document library of 34 templates, forms and reference documents, and my e-book, *The Freeway: Estate Reclamation Mastery*, included with your membership.

My commitment to this community is absolute. Raven, Joy, Damita and I will be with you on 4 live group calls every month, teaching without filter, fear, or compromise. Welcome home to The Freeway.

Why We Moved — TheFreeway.club vs Skool

Gamification, direct messages and the mobile app are on the roadmap. The platform already covers what matters most for this education: the document library, the AI Twin, the e-book, and a platform we own. You no longer depend on a third party's terms of service to discuss liens, CUSIP numbers or trust indentures.

YOUR FOUNDING MEMBER RATE

You keep paying \$200/month, the same as on Skool, and that rate is locked in for as long as your membership stays active. If you cancel and rejoin later, the regular \$399/month price applies.

Step-by-Step Migration Instructions
